CHERRY PECTORAL

For the Cure of

COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

AND FOR THE RELIEF OF PATIENTS IN ADVANCED STAGES OF CONSUMPTION.

Many years of trial, instead of impairing the public confidence in this medicine, has won for it an appreciation and notoriety by far exceeding the most sanguine expectations of its friends. Nothing but its intrinsic virtues and the unmistakable benefit conferred on thousands of sufferers, could originate and maintain the reputation it enjoys. While many inferior remedies thrust upon the community, have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

While it is a fraud upon the public to pretend that any one medicine will infallibly cure—still there is abundant proof that the Cherry Pectoral does not only *generally* thing, but almost invariably, cure the maladies for which it is employed.

As time makes these facts wider and better known, this medicine has gradually become the best resource of the afflicted, from the log-cabin of the American peasant, to the palaces of European Kings. Throughout this entire country, in every State, city, and indeed almost every hamlet it contains, *Cherry Pectoral* is known as the best remedy extant, for diseases of the Throat and Lungs—and in many foreign countries, it is coming to be extensively used by their most intelligent Physicians. In Great Britain, France and Germany, where the medical sciences have reached their highest perfection, *Cherry Pectoral* is introduced, and in constant use in the Armies, Hospitals, Alms Houses, Public Institutions, and in domestic practice, as the surest remedy their attending Physicians can employ for the more dangerous affections of lungs. Also in milder cases, and for children it is safe, pleasant, and effectual to cure. In fact, some of the most flattering testimonials we receive, here, come from parents who have found it efficacious in cases particularly accidental to childhood.

The *Cherry Pectoral* is manufactured by a practical Chemist, and every ounce of it under his own eye, with invariable accuracy and care. It is sealed and protected by law from counterfeits, consequently can be relied on as genuine without adulteration.

We have endeavored here to furnish the community with a medicine of such intrinsic superiority and worth, as should commend itself to their confidence—a remedy at once safe, speedy and effectual, which this has by repeated and countless trials, proved itself to be, and trust by great care in preparing it with chemical accuracy, of uniform strength to afford, Physicians a new agent on which they can rely for the best results, and the afflicted with a remedy that will do for them all that medicine can do.

PREPARED AND SOLD BY J. C. AYER, Druggist and Chemist, LOWELL, MASS.

Sold in Bangor at wholesale and retail, by INGRAHAM & FULLER. Also by G. W. Emerson, A. P. Guild, G. F. Sargent, Drugglists; Smithport, G. L. Bradley & Co, Belfast, Wm O Poor; Ellsworth, D. Nourse, Hampden, Isaac Snow, and by the Druggists generally throughout the country.

BANGOR AIR-TIGHT COOKING STOVE!

THE best Cook Stove ever introduced to this or any other people. Having secured the sole agency of this very desirable Stove, I take great pleasure in offering it to my customers and the public. This Stove was invented expressly for this eastern market, by those experienced and expert Stove manufacturers, Messrs. Eaton & Whitney, who know, and have appreciated the wants of this enlightened people. It is now offered to the public with the fullest confidence in its merits, and its superiority over every other Cooking apparatus ever introduced. Its conveniences for Boiling, Broiling, Frying, &c, are not surpassed, and its extensive and beautiful Oven for Baking and Roasting, will at once recommend itself to the Ladies. One very important feature is, it has very stout and smooth castings, and being manufactured in this city, can at all times be repaired, if ever necessary, at a trifling expense without subjecting one to wait for castings to be ordered from New York, Rhode Island, or elsewhere. Every Stove is warranted one year, and one not giving entire satisfaction may be returned and the money will be refunded after 30 days trial.

—ALSO—

A great variety of other patterns of cooking Stoves, such as the

Our State, Bay State, Empire State, Granite State, State of Maine, &c.,

All or any of which will be sold at extremely low prices.

Elevated Oven Stoves—Hampden 3 and 4 Boiler and two Oven—Boston, two oven Stoves, Forest-Queen, &c., and that very beautiful pattern of Cottage Parlor Cook Stove, and in fact every variety of Stove for Cooking or warming, worthy of notice, can be found at the Central Street Stove and Furnace Depot.

CULVER'S COAL FURNACE

Is acknowledged to be the very best Furnace for Coal ever introduced.

PROUTY & MEAR'S WOOD FURNACE!

Manufactured entirely of Cast Iron is the most durable and economical Wood Furnace to be had.

—ALSO—

Lombard's Kennebec, Wood Furnace, of which I set the past season 10 or 12 and they have all given entire satisfaction. From six to eight cords of dry hard wood is sufficient to warm any ordinary sized dwelling house.

Any of the above Furnaces set in the best and most approved manner at short notice.

PATENTS.

American and Foreign Office

AGENCY FOR BUSINESS
WITH U. S. PATENT OFFICE,
WASHINGTON.

No. 22 State Street, Boston.

IN 1840 the subscriber was appointed by the Commissioner of Patents, Agent of the U. S. Patent Office, in accordance with the 10th Sec. of Act of '37.

Having relinquished the Agency for the transmission of Models, and adopted a more expeditious mode of sending them to the Patent Office, *whereby a Patent may be procured about six weeks earlier* than continues to forward them free of expense—to prepare Caveats, Specifications, Assignments, and all the necessary Papers and Drawings for Patents, and to render advice on legal and scientific matters respecting the same. Patents secured in Europe and other countries.

By application at this office, inventors are saved the time and expense of a journey to Washington and delay there, as well as all personal trouble in obtaining their patents. They also have the advantage of *verbally* explaining their inventions, and of consulting in respect to them; *matters, in general, of paramount importance in order to obtain correct specifications and claims.* The experience of *sixteen* year's practice, an extensive collection of rare works, decisions, &c, on mechanical subjects, the Patent Laws, and patents of different countries, collected at much expense during the long time this office has been established, together with accounts here kept of inventions patented at Washington, enable the subscriber to afford information which in other respects might be difficult of attainment.

R. H. EDDY, Solicitor of Patents.

WASHINGTON, JULY 21, 1849.—During the time I occupied the Office of Commissioner of Patents, R. H. EDDY, Esq., of Boston, did business at the Patent Office as Solicitor for procuring Patents. There were few, if any, persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity and success. I regard Mr Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE,
Late Commissioner of Patents.

DR FONTAINE'S BALM

—OF A—

THOUSAND FLOWERS.

For the Toilet, the Nursery, for Bathing, and many Medicinal Purposes

HIGHLY perfumed by its own ingredients. Recommended by the faculty of almost every European city, and established under the patronage of almost every Physician in London and Paris, and thousand of individuals, who make daily use of it in New York, Philadelphia and Boston—It is the greatest luxury a lady or gentleman could wish for the improvement of health, for comfort and personal embellishment, and its delicate tele soothing sensation, and the delightful softness it imparts to the complexion.

We give a few of the prominent properties of the

Balm of a Thousand Flowers!

already well established by actual experience.

FIRST.—This Balm remedies every defect of the Complexion;

And establishes in its stead Beauty and Health, as the time when both, by the changes of age, or freaks of nature, or disease, have been obscured and undermined—it cleanses the skin, and draws to the surface all impurities, and every species of pimples and blotches; also removes tan, sunburns, sallowness and freckles, imparting to the skin its original purity, and an unsurpassed freshness, rendering it clear, smooth, and white.

SECOND.—It promotes the Growth and increase of the Hair, causing it to Curl in the most natural manner.

It cleanses the head from dandruff, giving vigor health and life to the very roots of the hair.

THIRD.—It is a superior article for Shaving being superior to all descriptions of Soaps, Creams, Pastes, &c.

As a DENTRIFICE for *cleansing the Teeth*, it is by far the most mediumal of any compound yet discovered, preventing decay, relieving pain, ulcers and cankers, and renders the teeth as white as alabaster. For bathing, for suffering infants and for adults to promote sweetness of body, cleanliness, health and strength, and to prevent eruptions, &c., there is no article more suitable than this Balm. It may be used in cold or warm, hard or soft water.

Great American Remedy.

FOR COLDS, COUGHS, ASTHMA, CROUP AND CONSUMPTION.

WILL, lovelids, do you almost invariably overlook the very best remedy for your complaint, in search of something with a foreign or mysterious or crack jaw name? Half of them are made by quacks, or persons having not a little of the scientific and practical knowledge, either of medicines, or of the human system, of the author of the above medicine. For dry, hard coughs, and for children with severe studed cold, or with croup, it is invaluable; and I challenge a trial of effects with any Indian, Egyptian, Arabian, English, French, German or any other foreign or domestic preparation, which is now offered to the public for sale, in all the cases for which it is recommended. It was used by Doct Mosly Hardy, its author, for many years with great success. More than twenty thousand have tried it, and all commend it, then why look farther?

Whig and Courier.

John S. Sayward, Editor.

THURSDAY, OCT 7, 1852.

NATIONAL WHIG NOMINATIONS.
ELECTION, TUESDAY, NOV. 2, 1852.

FOR PRESIDENT,

WINFIELD SCOTT.

FOR VICE PRESIDENT,

WILLIAM A. GRAHAM

OF NORTH CAROLINA.

For Presidential Electors.

DANIEL GOODENOW, of Arundel
THOMAS S. SIMPSON, of Dover
ALEXANDER CUMMINGS, of Dexter
ABNER COBURN, of Bloomfield
JOHN B. MARROW, of Dixfield
JOHN B. BROWN, of Portland
JOHN BALCH, Prescott.
WILLIAM AYER, ——

☞ Senator Soule has recently attracted attention and received the unqualified plaudits of the loco press, on account of his partizan speeches made at public political meetings in Maine and other States. The disinterested and gratuitous labors of this red republican have been marked by most wanton abuse of General Scott, whom he called a "Feathered mendicant," and of John Adams and other heroes of the revolutionary period, and for these reasons, if for no others should subject him to criticism. But it is further to be thought of that this Senator from Louisiana is a member of a Committee appointed by Congress for the purpose of investigating the subject of frauds upon the Government, for which he receives the pay of U S Senator, the snug little sum of eight dollars a day, together with mileage, the frinking privilege and numerous other "perquisites." It certainly ought not to be deemed any want of courtesy to inquire whether, with this ample pay Senator Soule is doing up the business and performing his duty by running down into Maine to make speeches to help his party—and himself! Is not his own conduct a sort of fraud upon the Government which should arrest his attention?

The loco press affects to be appalled that Gen Scott should make a speech while making a journey required by law for him to make, and which he must make or neglect his public duty, but it is all right with them, to have Senator Soule neglect his public duties for which he receives eight dollars a day, to make speeches for their candidate—all right, perfectly right, any thing for the party. We should like to have the editors of the loco press look the common sense people of our State full in the face and talk that kind of stuff. Senator Soule on a Committee for which he receives eight dollars a day, and he instead of being at Washington, running over New England making party speeches!

☞ The knees of the Eastern Argus, like those of old Belshazzar's smite together on account of the fact which it says, that the Free Soilers of Maine, will cast their votes for Scott Electors. The Argus knows very well that Gen Scott ought to be vastly more acceptable to the Free Soilers than Gen Pierce, and it is therefore in terrible trepidation in anticipation of the result.

General Scott's Services and Pay.

The course pursued by the Locofocos in regard to the services of General Scott, bear on the face such unmistakeable marks of malignity and recklessness, as to impress the people with the conviction that the evil for the papers was generated in malice, and designed as an insult to Scott, and to impose upon the public. The people are convinced that General Scott is a persecuted man, and the effect of the malignant effort of Morrison her and his confederates, is directly the reverse of what they intended. In this, as in all similar cases, the actors will find, to their chagrin, "that persecution never injures a righteous cause, but in the breast of a free and generous people ever promotes, rather than injures such a cause, by evoking a fervent sympathy with the persecuted." So it is in this case, and the actors in this vile attempt to injure General Scott, will deserve thanks for bringing his important and varied services to his country for near a period of half a century, before the public mind. Certain it is, that the more thoroughly his services are scrutinized, the more meritorious they will appear, and all malignant efforts to defame and degrade him, will but elevate him still higher in the estimation of the people at large, and strengthen their affection for him. In reference to this matter, the New York Commercial Advertiser says

The call of Congress has been promptly answered, cunning political mathematicians have twisted the answer into all manner of forms, but the result is ever the same (to them) annoying conclusion—that General Winfield Scott has never received a cent from the national treasury beyond ordinary pay of his rank, or for extra services recompensed according to the scale provided or approved by Congressional enactment. There is not on record a more disgraceful display of political desperation, nor a more signal defeat of a base attempt to slander a distinguished American citizen. Gen Scott has received pay for extra services, because he has performed them. If the Washington Union, and those journals and politicians who are accustomed to nod assent, to every slander or falsehood it utters, mean to say that an officer of the government, civil or military, is to perform first all the duties appertaining to his office, and then every and any duty foreign to that office which can be crowded into his leisure hours or moments, let them openly avow that principle, and they will find it very promptly repudiated as inconvenient by every soldier and other holders of their own political faith, and as unjust by the whole American people. Such a tyrannical assertion is scarcely ever practised by the master over his slave.

The regular pay and allowances made to Gen. Scott—that is, pay and allowances regulated by act of Congress, and which would have been paid to any one serving in his rank and for the same time, viz: forty-four years—amount to $251,286 70. His extra allowances have been, since 1819 to the present time, about 18,000. They include $2164 for his diplomatic mission to Europe,—not for services, for he received only the pay of his brevet rank, but for loss by difference of exchange and the authorized allowances for horses and servants, $1428, for a *per diem* allowance, while engaged in preparing a military work under the orders of the War Department, $1644 for preparing a work on infantry tactics and the regulations of the army; $2484 for a *per diem* allowance and expenses on an Indian mission, in 1832; $3000 for compensation as author and compiler, and services in superintending the printing of the New System of Discipline and Tactics, specially provided for in an appropriation bill passed by Congress on the 3d of March, 1835; $1952 for *per diem* allowance on an Indian mission, and other smaller amounts. To these are to be added $7,885 for losses and commissions on disbursements in Mexico, which the Union says were "without warrant of law." We find it hard to believe that the allegation was made ignorantly. Suffice it, however, to say that the accounting officers entertained a contrary opinion, as did other competent authorities. There remains an open account pending an interpretation of an act of Congress."

Two Weeks Later from Oregon.

The accounts from Oregon, via California are to the evening of August 28th. From these we learn that numerous parties of immigrants had arrived at Oregon city during the early part of the month, who report but little trouble crossing the Cascade Mountains. A great many immigrants were arriving daily at the Dalles, and were proceeding to cross the mountains with their teams and families. Large droves of horses, cattle, sheep, &c., are reported on their way to Oregon. It is thought the number of persons coming by the overland route this season will be nearly ten thousand.

☞ The San Francisco Herald says that from accounts they daily receive from the mining regions, there is every reason to believe that the gold deposits are so extensive that they will furnish employment to thousands of miners for one hundred years to come.

Three slabs were being prepared in California for contribution to the Washington Monument.

The mining news is most encouraging from various parts of the State.

In the vicinity of Sonora a great inquiry is made for farming lands, and it is probable a large portion of the emigrants this year will turn their attention to agriculture.

☞ The Albany, (N.Y.) Journal says, if Gen Scott's military achievements were not so dazzling, his civil qualifications would be more conspicuously apparent. As a soldier he has acquired glory enough for a whole battalion of generals, and his civil services would furnish surplus capital enough for a dozen such statesmen as Gen. Pierce.

☞ The New York Times states that there are shops in various parts of New York city where liquor is regularly sold to children at a cent a glass!—and the Police returns give assurance that the keepers of them have induced scores of children to become regular frequenters and customers of them.

☞ The Washington Republic announces that the Hon. James H. Johnson, a prominent Union Democrat, of Georgia, has declared for Scott and Graham.

☞ One dollar bills altered to Ten's of the South Berwick Bank, Maine, have just been put into circulation.

☞ Extensive Coal beds have been discovered in San Salvador, and Gold mines in Costa Rica.

☞ The rumored revolution in Nicaragua was premature.

☞ Hay is now selling in Boston at $25 per ton.

☞ Col. Aiken, a Webster elector in Georgia, declines the nomination.

Whig Expenditures.

Some of the Locofoco orators—and chief among them, Senator Douglas, who, instead of travelling through some thirty states, as he pledged himself to do, has been called home to prevent Illinois going for Scott—have been assailing the expenditures of Mr. Fillmore's administration as extravagant, and arguing therefrom that the Locofocos are the only party who are at favor of *economy*. Those who remember their action and practice while in power, know very well—for the official documents show it—that they are spendthrifts. The National Intelligencer has an able article on the subject, in which the charges of extravagance, brought by Douglas and the rest, against the whigs, are so completely riddled that they can not be patched up again. We have not space for the whole article in the Intelligencer, but the facts are deserving of extensive circulation.

The first effort of the Intelligencer is to show that the appropriations made by Congress, about as far ahead of the "calls" or estimates of the administration. The first statement—as follows—is the amount originally reported to the House by the Committee of Ways and Means:

Civil and Diplomatic,	$5,052,770
Invalid pensions,	1,366,240
Navy, "	45,000
Indian Department,	879,609
Army, "	7,396,776
Military Academy,	135,958
Fortifications,	141,500
Rivers and Harbors,	1,601,290
Navy,	6,705,467
Transportation of mail by ocean, steamers,	1,467,750
Lighthouses,	497,025
Amt. originally reported,	$25,188,366

In the passage through the House of Representatives the Democratic majority added to the above sum, as follows:

Civil and Diplomatic Bill,	$1,341,502
Indian Appropriations,	431,861
Rivers and Harbors,	45,000
Navy, "	20,000
Ocean Mail Steamers,	473,000
Lighthouses,	31,600
Total increase by the House,	$2,342,363

The following items were decreased by the House, namely

Army,	$4,555
Military Academy,	9,000
	13,555
Actual increase by the House	$2,302,807

With these additions, the bills went to the Senate, where the Democratic majority thought their brethren of the lower House had not put their hands deep enough into the public Treasury, and they piled on the following amounts in addition, namely:

Civil and Diplomatic,	$904,014
Indian Affairs,	675,565
Army,	840,157
Military Academy,	3,100
Rivers and Harbors,	578,000
Navy,	231,260
Lighthouses,	181,120
	$3,413,216

The above were the additions to the definite appropriations, besides which the two Houses made *indefinite* appropriations without specifying the amounts for the different items respectively, but which are estimated to amount to about $1,300,000 more.

The whole sum demanded from the House by the Committee on Ways and Means for the annual appropriations for the fiscal year ending 30th June 1853, independent of *permanent* appropriations, was	$26,188,365
Included in this sum was $141,600 for fortifications, the whole of which item was struck out,	141,600
Leaving the sum of	$26,846,855
To this aggregate the House added	2,322,490
And the Senate added,	3,413,216
And the two Houses between them added still further for indefinite appropriations, say	1,300,000
	$33,082,577
Amount reported to the House,	25,046,865
Leaving the sum of	$7,035,712

as the amount added to the national expenditures by the *Economical Democratic Congress*, or more than *one-fourth additional on what was asked from them.*

The original amount demanded from Congress for the annual appropriations for the current fiscal year, as already stated above, was	$26,046,865
The permanent appropriations under former acts of Congress for civil list, expenses of collecting the revenue, arming the militia, &c. amount to	5,637,800
And for interest on the public debt	3,879,600
Making, together	$35,014,415

which would have been the full current expenditure from the Treasury for the fiscal year, had not Congress voluntarily added more than ten millions of dollars to this amount. This additional expenditure no one will pretend that the Administration, or any body but the democratic majority in Congress, is responsible for the expenditure, and the Executive has only, under his Constitutional oath and obligations, to see that its Laws "be faithfully executed." So much for democratic "extravagance," against whig economy.

Consider these Things.

Before this time, if the members of the different Whig and Locofoco organizations have done what they undertook to do, you the people, have at your firesides the means for coolly and calmly comparing the two Presidential candidates. Lives of the two opposing candidates are or should be in the hands of all, and for the sake of an impartial comparison, we are willing to allow to our opponents the full benefit of all they can or do claim in behalf of Gen Pierce. We are willing to admit that he is a fair lawyer, a good neighbor, and a clever fellow, as the world goes; that he occupied a seat in the United States Senate without disgracing himself, and that he went to Mexico for the purpose of fighting from which he was prevented by a series of untoward accidents and misfortunes. We ask you, farmers, mechanics, and workingmen of Michigan, to turn from this spectacle and read the story of General Scott's career and public services, and compare it in point of brilliancy of world-wide fame, and of absolute and practical utility, with that of his competitor. Look upon both, not as partizans, but as patriots; not as politicians, but, valuable, exemplary, and useful citizens. In order to do this, it will not be necessary to ask the aid of politicians upon either side. They have their private ends to gain, their own interests to subserve, and three out of four of them to whom you would be likely to apply are candidates or expectants of office, and would be very likely to be governed, in what they might say to you, by selfish and personal considerations. Most of you, of all parties who love their country, and who take pride in her past glorious history, and her prospective greatness, do not require to be told who Gen Scott is; you are familiar with the leading incidents of his eventful life, and you have been familiar with them from childhood. You learned them when children over the winter's fire, in your histories, over which you have pondered in the school room, or from the lips of your sires or grand parents who fought in youth and manhood by his side, and helped to carry the flag of their country in honor to victory, over the broken grounds of battle-fields, in the dark and bloody hours when true men *faint not*, we call upon you at this time to refresh your memories by a renewed perusal of his history, which has been for forty years the history of his country, and when you have done so, to ask yourselves what party has ever done for you that you should desert such a man for a mere politician.—Detroit Daily Advertiser of Sept. 8th.

We learn from our correspondents in all directions that General Scott is gaining every day, and General Pierce is losing ground. This will continue to be the case. The more Gen. Scott's character is examined, the better it is for himself and the Whig cause. The more General Pierce's public course is scrutinized, the worse it is for him and his party.

We have done our best to be just, and even generous to the Democratic candidate. We were determined to give him full credit for his military and civil services. Soon after his nomination we published from an official document issued in the city of Mexico, a list of the battles in which he had been engaged. It turned out that Gen. Pierce was not present in those engagements, but his *brigade* only. This was not our fault. Our statement was copied by all the Democratic papers. When it was corrected, we were compelled to publish the truth. We have never written a line reflecting upon Gen. Pierce's personal gallantry; but we cannot falsify history from an excess of complaisance. In our judgment, his military services, on a thorough examination, amount to just nothing at all. His civil services from the same examination we are compelled to set down at less than nothing; for we cannot find a single substantive measure that he has ever urged to a successful termination. We consider his votes against Harbor and River bills, against all manner of internal improvements, against the Army bills, against West Point, against the widow of William Henry Harrison, and against everything that savored of liberality and progress, not in the light of servants, but just the reverse.

So with regard to the religious test of New Hampshire. We stated that Gen. Pierce had been liberal on this subject and that he had uniformly voted in favor of perfect religious toleration and freedom. We say so still. But on examining Gen. Pierce's opportunities, and the votes of his party in New Hampshire, we cannot conscientiously say that we think he has exercised his great influence in his State in this regard with any strong or decidedly beneficial purpose.

The truth is that Gen. Pierce's private character was a good one. Was it deserved his nomination. We believe that we thought the Democracy had nominated their strongest man. It never occurred to us that any person could have filled the numerous offices that have been filled by Gen. Pierce without making his character somewhere. We cannot perceive, however, that he has made a single available or effective point, either in peace or war. He did not make it in the House of Representatives. He did not make it in the Senate. He did not make it in Mexico. Where did he make it?—Republic.

Get Up Before the Sun.

[From the Maine Farmer.]

Get up before the sun, my lads,
Get up before the sun!
This snoozing in a feather bed
Is not what should be done.
Between sunrise and breakfast, lads,
Rise, breathe the morning air,
'Twill make you look so bright, my lads,
'Twill make you look so fair.

Get up before the sun, my lads—
Shake off your sloth—arouse!
You lose the greatest luxury
That life has, if you drowse.
Between sunrise and breakfast, lads
Arise, then, do not lose
The key of health and happiness,
By lying in a snooze.

Get up before the sun, my lads,
And in the garden hoe,
Or feed the pigs, or milk the cows,
Or take the scythe and mow;
'Twill give you buoyant spirit, lads,
Give vigor to your frame—
Then rise before the sun, my lads,
And the rich blessings claim.

The most extraordinary discovery in the world is Great Arabian Remedy for Man and Beast.

H G FARRELL'S

CELEBRATED ARABIAN LINIMENT.

The beautiful and fertile region skirting the desert of Arabia, abounds with rare plants and odorous woods, whence are procured those aromatic gums and balsams of which this Liniment is composed, and by whose stimulating, unctuous and penetrating properties it is, when applied, diffused through the whole nervous system, allaying the most intense pain in a few minutes. Try it, when you will be convinced that no preparation possesses in so high a degree, its perfect anodyne qualities. Its action is prompt and effective. It penetrates the flesh to the bone, relaxes contracted cords, restoring use to the limbs paralyzed for years, and where the flesh has wasted away, leaving nothing but skin and bone, excites a healthy action, causing new flesh to grow, nerve and fill up the shrivelled parts. It restores the synovial fluid or joint water, and this is the reason why it has been so successful in diseases of the joints. In affections of the Spine, Liver, Lungs and Kidneys, the great remedy stands before any other ever produced. For ague cake or enlargement of the spleen it is a specific. For any internal inflammation, you will find it gives great relief. It has no equal in the world for Rheumatism—Also, cramp, swelling, rumbness, weak joints, Spine and Chest, pains, wounds, chilblains, burns, sore throat, bites of insects and reptiles, salt rheum, warts, corns, mange, and indeed nearly all diseases which require an external application, and many others, are greatly benefited by it. It is used externally with great success in sore throat, or swelled neck, Scrofula or King's Evil, Liver Complaint, nervous diseases, &c. For Horses or Cattle it is as effectual as to diseases of man. Will cure any case of Sweeny in existence, also, Spavin, Splint, Ringbone, Big head, Fistula, Farcy, Poll Evil, Wa[illegible]ng, Bruises, &c.

13 More Passengers will be taken.

This Bark was built expressly for the California trade. She made the passage from San Francisco to New York in 102 days. She is fitted up expressly for passengers and will be in good ballast trim for sailing. She will take the steamer down the river, and there remain a few days to get ready for sea.

The Rev. Daniel McMaster, of Pittsfield, will go out as Chaplain.

No pains or expense has been spared to make the passage a pleasant one, and as short a one as has been made, as she goes out only in ballast.

Patent Safety Lamp and Lamp Feeder.

A NEW article, warranted to prevent all accidents, from the use of Burning Fluid, Camphene, and all other explosive compounds used for the production of light.

This invention is applied to Silver, Brass, Britannia, Glass, and all other styles of Lamps, and Lamp Feeders.

CERTIFICATE.—We have had an opportunity to test the Patent Safety Lamp and Lamp Feeder of Mr John Newell, of this city, in regard to the exposure of protection which their constructions affords. In the trials to which we subjected them we endeavoured without effect, to produce explosions of the vapor of the fluid mixed with air, and to burst them by the pressure of the vapor alone.

The principle adopted by Mr. Newell is that of the well known Davy Lamp. He has so combined the parts that we are satisfied that all risk of explosive action is removed.

Westward Ho!

THE attention of all persons who contemplate emigrating to the "West" is invited to the following facts, to wit:

1st. That the subscriber resides in the most favorable region of country in the United States.

2d. That lands are held at so low a price that it is at present within the reach of any man to purchase a farm and in a most beautiful and healthy climate.

3d. That persons who desire to emigrate to that country but have not the means to purchase a farm when they should get there, that he will sell them farms, and wait upon them for the purchase money till they can raise it from the surplus products of such farms.

4th. That one man can raise from his own labor, and that of a span of horses, from $300 to $500 per year, besides supporting his family.

5th. That he can locate them upon government land, near a good market.

6th. That the location made for them, (except upon government land) would be in a good neighborhood of Eastern people, where the privilege of schools are had.

7th. Any person having lands, or wishing to locate any land, can obtain any information they may desire—also any claims which they wish adjudicated or collected in the Western States will be promptly attended to upon application to the subscriber.

Also, the highest price paid for land Warrants, and locations made of the same upon the best lands in the great West, under his own supervision.

BAY STATE

COOKING STOVE,

For which the subscriber is Sole Agent, is the very best Cooking Stove ever invented, surpassing in its cooking apparatus—boiling, broiling, baking, &c., &c.—all competitors, as well as in smoothness and thickness of Castings, durability and economy. The fact that more than 26,000 are sold per annum, is of itself proof positive of its general excellence.

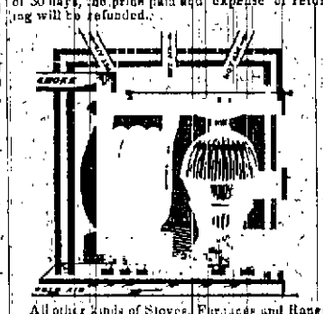
Over 300 have been in use in this city and vicinity for upwards of three years without requiring repairs, for which purpose the undersigned has castings constantly on hand.

One great advantage possessed by the Bay State over all other Stoves, of whatever description, to which advantage public attention is particularly invited, and which enables it to bake equal to the very best brick oven, is the improved and durable and economical character of its fire plate, being of great thickness and composed wholly of one casting, requiring less fuel than other Stoves, and baking with great evenness and expedition. This advantage will be appreciated by all intelligent housekeepers and cooks.

The Bay State is of six sizes, varying from $15 to $60.

THE WARRANT!
TAKE NOTICE.

Stoves not proving satisfactory after a fair trial of 30 days, the price paid and expense of returning will be refunded.



All other kinds of Stoves, Furnaces and Ranges, together with Registers, Ventilators, and Copper, Steel, Sheet Iron and Tin Ware constantly on hand, and for sale at reduced prices.

LIKEWISE

Penrhyn Marble Mantels!

An exceedingly elegant and cheap article, and one which rivalises its beauty and polish even in opposition to coal, gas, smoke and solids.

age's Specific,

NEVER *failing remedy for the* thoroughly *eradicating disease of the Urinary Organs*, such as Gonnorrhea, Gleets, Whites, Strictures, Stone in the Bladder, &c., and needs but to be once used to be universally esteemed. The proprietor would respectfully caution those troubled with the above annoying complaints, to beware of those quack every-things, which unprincipled individuals, without the slightest knowledge of the structure of the human system, recommend for every disease. Lesage's Specific is solely intended for the cure of Private Diseases, and the thousands that have sent their unsolicited certificates vouch for its efficacy, while the better it is known the greater is the demand for it. How different from the various quack medicines which, when the unhappy patient has once used, no inducement can ever make try again—Lesage's Specific has been the remedy depended on by every fellow, the senator, the lawyer, the mechanic, the seaman and the dashing stripling have all tried it and found it truly the good Samaritan the hour of trouble.

Dr Darby annexes extracts from some of his certificates:

U. S. Frigate Cumberland, 1851. I contracted a disease at Naples, and tried all the remedies suggested by the most experienced Surgeons without success. Lesage's Specific has restored to me the health I long despaired of.—J. W. W.

Louisville, Ky.—I have much pleasure in stating that Lesage's Specific has cured me, of a gleet of 22 months duration.—H. C. D.

Bangor, Me.—After having used two bottles I found myself cured of an old standing complaint in six days, and shall not fail to recommend you, should I know of any troubled as I was.—John Brown.

Sold by RALPH H DARBY, Apothecary, No. 91 Broad street, Boston. Price $1,00 per bottle; two bottles $1,75.

Bigelow's Alterative.

A CERTAIN cure for DYSENTERY, DIARRHŒA, CHOLERA MORBUS, and all Summer Complaints. GEORGE W. BEECHER, Proprietor, 98 Broadway, New York.

For children who are Teething, and Cholera Infantum, this medicine stands unrivalled. It may be used with perfect safety both by old and young; and when faithfully administered it has never been known in any case to fail of its speedy cure. Unlike other medicines, it corrects the bowels, and often in a few hours the patient is restored to his accustomed vigor and health.

We append the following testimonials.

I have used "Bigelow's Alterative" in my family and have never found it to fail, when all other remedies administered by and under direction of Physicians have proved ineffectual. I think it a perfect corrective for Dysentery and all Bowel complaints.

GEO. W. BURKE, 47 Wall st.

New York, March 22d, 1852.

We can add our testimony to that of others of its great efficacy in our own case, when prostrated to an alarming degree by Bowel disease. It was the only medicine that gave relief, and one now always kept in the family.

Editor of the N. Y. Baptist Register.

Utica, April 15th, 1852.

"Bigelow's Alterative," advertised in another column of our paper, is probably, the best cure for Dysentery, Diarrhœa, &c., &c., that has ever yet appeared. We seldom make a point of extolling patent medicines, and for the very good reason that most of them are entirely undeserving of praise; but we have it on such indubitable and respectable authority, that the above "Alterative" can be relied upon thus, it professes to be that we cannot do less than make mention of it in this way, to our readers. All that we ask of the most incredulous in such matters is, to read the *Certificates* embodied in the advertisement, and then, judging from the high standing of the parties (who are thus ready, promptly and *publicly* to certify, candidly to say, whether a remedy so endorsed, is worthy of attention or otherwise. We have more to say of this remarkable preparation

Galvano-Electric Chains,

which are recommended by all the first Physicians in Europe as the certain remedy for *Gout, Rheumatism and Nervous Complaints*, what our eminent Physicians, Dr. Wm. Wesselhoeft, Dr. C. F. Hedenfalde, Dr. John Birnstill and Dr John Eskot, in Boston; Dr John Vanderburgh, in New York, Dr. McManus, in Baltimore, etc, *have profited by trying them!* More than 1000 testimonials of above Physicians, *which are confirmed by the government of Berlin*, may be read in the different languages at my Agents. All persons afflicted are respectfully invited to call on my Agents and satisfy themselves personally of the truth of these statements.

I recommend these Chains to all afflicted as there are daily new and extraordinary cures effected by them.

The genuine Galvano-Electric Rheumatism Chains of Goldberger, are to be obtained of the following Agents:

THE PHYSICIAN'S SURE RELIEF, OR UNIVERSAL PAIN KILLER.

This valuable article is now in use in the principal Hospitals of Europe, and is the only one of all Physicians and Surgeons in those countries recommended for the cure of every kind of pain. It is used externally and internally, and is the only one that has ever been known to cure Cholera, Cholera Infantum, Dysentery and Diarrhœa, and has been used in cases where all other remedies have failed. It has never been known to fail in curing the most violent pain in the human system, when used according to the directions. It
